

ChargeHub and Lakeland EV Charging Partner to Expand Canadian Public Charging Access to the Muskoka, Parry Sound area

ChargeHub, the operator of North America's leading EV roaming platform, announced a new partnership with Lakeland EV Charging, a growing Muskoka-based Canadian charge point operator (CPO), to expand access to public EV charging infrastructure throughout Ontario's Districts of Muskoka & Parry Sound, just in time for drivers to make their summer travel plans!

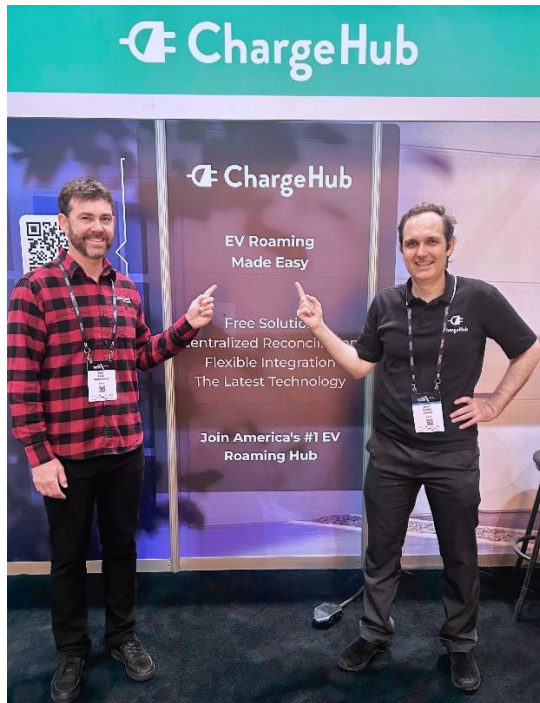

Through this collaboration, Lakeland EV Charging's network of public charging stations will now be accessible via Passport Hub, ChargeHub's industry-leading roaming solution, and its ecosystem of e-mobility service providers (eMSPs), including the popular ChargeHub app. This seamless integration provides EV drivers across Canada greater convenience and broader coverage for public charging, whether on local roads or cross-province travel routes.

Adding Lakeland's network further strengthens Passport Hub's position as Canada's largest pool of compatible charging ports through a single turnkey integration. Passport Hub connects drivers to over 20,000 charging ports, close to two-thirds of all CCS and J1772 networked stations in all provinces.

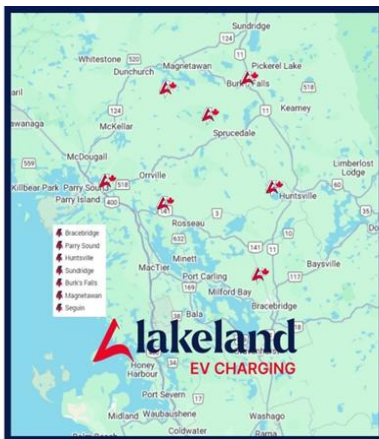

"This partnership is about making EV charging simpler for drivers while giving utilities and site hosts powerful tools to scale smart, interoperable infrastructure," said Simon Ouellette, CEO at ChargeHub. "Together with Lakeland EV Charging, we're helping Canada take another meaningful step toward EV roaming from coast-to-coast".

Director of Lakeland EV Charging, Peter Ewald, is thrilled with the with ChargeHub partnership stating "now EV drivers can confidently make their summer travel plans to Muskoka knowing they can count on fast and reliable charging. The network features 180Kw Fast Chargers that on average can charge 100km in 10mins, plus, with our head office in Bracebridge, Ontario, our local technicians ensure regular upkeep and are rapidly deployed for service support.

The collaboration reinforces both companies' commitment to accelerating EV adoption by removing barriers to public charging and ensuring drivers have easy access to reliable stations, wherever their journeys take them.

About Lakeland Solutions/ EV Charging

Lakeland Solutions is an arm of Lakeland Generation dedicated to furthering energy innovation and transforming the way power is utilized. One of these initiatives is the building and maintenance of the Lakeland EV CHARGING Public Network. The first phase of this network covers from Bracebridge, north of Huntsville to Burk's Falls, and across the Almaguin Highlands to Parry Sound - and much more to come. The businesses Mission is to provide the fastest and most reliable EV Charger Network in the region. With the head office in Bracebridge, Ontario our local technicians are rapidly deployed for service support. And the Lakeland EV Charging App provides up-to-date information that can be counted on for charger availability, options and price.
