

Exciting Updates from Lakeland EV Charging

What's New

Phase 2 Announcement:

Lakeland EV Charging Network Set to Double: Transforming EV Travel Across Central Ontario

Lakeland is expanding its public network to include **17 new sites across central Ontario, bringing the total to 33 stations by Fall 2026**. The expansion will add 50 new chargers, including 26 dual-port DC fast chargers (DCFC) at 180kW (charging 100km in 10 minutes, on average).

Along with Lakeland's app, to make planning even more seamless, Lakeland EV Charging has joined the ChargeHub Passport Hub.

Pay Per kWh

We have transitioned from time-based to energy-based pricing on all Level 3 Fast Chargers. You now pay for the exact amount of electricity you use.

- ✓ **Approved by Measurement Canada**
- ✓ **Fair and transparent for all EV drivers**

Check the Lakeland EV Charging App for site-specific pricing details. We're committed to making EV charging more convenient, transparent and user-friendly.

Credit Card Tap & Go Option

We are actively installing Credit Card readers on all of our 180kW Level 3 Fast Chargers.

Charging is now even more convenient!

You can activate a session using:

- ✓ The **Lakeland EV Charging App**
- ✓ Our **Web Platform**
- ✓ Your **RFID card**
- ✓ **OR tap your credit card** at the charger!

No need to download anything if you're just passing through, just tap and charge.
